HEALTH LIBRARY

The National Library of Medicine is the world's largest biomedical library and a leader in research in computational health informatics. The National Library of Medicine is the world's largest biomedical library and a leader in research in computational health informatics. The National Library of Medicine is the world's largest biomedical library and a leader in research in computational health informatics.

Ailments

Headache

Over-the-counter pain relievers such as acetaminophen (Tylenol), ibuprofen (Advil, Motrin), and aspirin can help relieve headache pain

High Blood Pressure

Medications such as ACE inhibitors, beta-blockers, and diuretics can help lower blood pressure in people with hypertension.

Cold

Over-the-counter cold and flu medications, such as decongestants, antihistamines, and pain relievers, can help alleviate symptoms such as congestion, runny nose, cough, and fever.
